

6516206376.txt

I have been an XM subscriber for over 2 years and believe they do a service to the public such as I. During the week, I am a salesman on the road, and have the radio on while going from state to state. The same goes for the weekend when my wife and I are in our motorhome or personal vehicle.

The convenience of not looking for radio stations while traveling, far out weights the the costs.

The ground air radio stations do not fit the programing of the average traveling citizen. They are more concerned with their sponsors wishes.
